

Earswick  
Parish Council

# EARSWICK PARISH PLAN 2012

## **FOREWORD**

**Welcome to this first edition of the Earswick Parish Plan, the publication of which is the culmination of work that started in Spring 2011 with the issuing of the Village Survey, and in which every household in the village has had the opportunity to contribute. The plan set out before you represents the views of residents as to how we would like to see our village “in future times”.**

**The plan reflects what the majority of Earswick people think is of the most importance, what things need to be preserved and what facilities need to be provided. Most importantly it provides an Action Plan setting out what the village has decided is needed, how it will be tackled, who will be responsible, when it is required by and how it will be funded.**

**The publication of the Earswick Parish Plan does not mark the end of the process rather the beginning of an era of continuous enhanced community involvement. It also provides your Parish Council with a secure mandate to represent the village's requirements when dealing with external bodies such as City of York Council and North Yorkshire Police.**

**I would like to thank all those involved with the production of the Plan and the process which led up to it but most of all I would like to acknowledge the residents of Earswick for embracing the concept of the Parish Plan which, I'm certain will over time enhance the community for the benefit of us all.**

**Derek Jones  
Chairman, Earswick Parish Council  
March 2012**

## Present Day Earswick

Earswick is a small, pretty North Yorkshire village on the riverside setting of the River Foss. Located on the York to Strensall road, Earswick is one mile south of Strensall and four miles north of the **city of York**. York's nearby outer ring road (A1237) offers access to the Leeds/Scarborough A64 and the Thirsk/Teesside A19 .

For many years the village was primarily an agricultural community but the late 20<sup>th</sup> century saw a decline in employment in agriculture that coincided with the growth of the village as home to a significant number of professional people working in the York area.

Like many small villages throughout the country, it has seen the disappearance of the village shop and has never had a church, school or public house.

Shops at nearby Strensall and Huntington cater for daily needs whilst the shopping centres of Clifton Moor and Monks Cross are less than 2 miles away.

Schools for both primary and secondary schoolchildren are located in nearby Huntington.

Earswick residents have burial rights in the cemetery in Huntington.

The village currently has around 360 residences with a population of approximately 800 people

There are several distinct areas of the village:

- The "old "village with 150 houses
- The Fosslands development with 125 houses
- The Garden village with 24 houses
- Strensall Road with around 50 houses
- Willow Grove with around 20 houses.

All the land outside the present built area is currently designated Green Belt.

*Fields to the east of the village*

Despite being so close to the city of York the village still provides an attractive rural environment in which to live surrounded by over 30 acres of public open space with designated footpaths and riverside walks, a Scented Garden, Tennis Courts, Play Areas, a Village Hall and Village Green complete with a maypole.

Earswick has its own website at:

[www.Earswick.org.uk](http://www.Earswick.org.uk)

## Origins of Earswick

The ancient township of Earswick or Edresuuic, as it was known before the Norman Conquest, is named from the Anglo-Saxon meaning "dwelling or farm of a man called AEthelric".

Over the centuries Earswick has been known by various spellings of its name: Edrezwyc and Edresuuic (xi cent), Etheirwike, Etherswyk and Ersewyk (xiv cent.), Erstewycke, Estwyyk and Arswiche (xvi cent.)

Earswick is also specifically mentioned in the Great Domesday Book (1086) where **records show that "three geld caruates** (about 360 acres) of land in Earswick

held of St Peter by Sasford and Godric before the Conquest belonged to the See of York and afterward formed part of the manor of Strensall".

By 1322 the overlordship of Earswick had transferred to Ranulph de Nevill of Sheriff Hutton and from here onwards ownership descended with the lordship of Sheriff Hutton.

In 1543 much of the land in Earswick was owned by Sir William Gascoigne which had come to him from his grandmother, Joan de Nevill.

The land was later passed down to Sir William's granddaughter, Margaret, then wife of Thomas Wentworth of Wentworth, and their son, Sir William Wentworth is recorded in 1599 as selling 6 houses and cottages with lands in Earswick, Towthorpe, Strensall and Huntington.

Sometime around 1650 the manor of Earswick was acquired from the Wentworths by William Weddell of Earswick who also acquired both of the manor houses and lands in Huntington.

From 1656 the manor and lands of Earswick remained in the same hands as Huntington manor through successive generations of the Weddell family.

*Rose Cottage, located in The Village, built in the 17<sup>th</sup> century is one of the oldest surviving buildings in Earswick.*

In 1792, Lord Grantham, Thomas Philip Weddell, held the titles of the manors of Earswick and Huntington He later became the Earl De Grey and after his death in 1859 the titles came to his daughter, Lady Mary Vyner, whose son Robert Charles De Grey Vyner then succeeded to become lord of the manors of Earswick and Huntington.

**In 1848 "A Topographical Dictionary of England" recorded Earswick has having**

95 inhabitants and comprised of 1020 acres.

The National Gazetteer of 1868 refers to Earswick as "a township in the parish of Huntington, Earl De Grey is lord of the manor". The inhabitants are described as being mostly in agriculture, with the land being principally arable and the soil clay.

By 1890, according to Bulmer's "History and Directory of North Yorkshire", Earswick consisted of 1,160 acres, including woodlands. There were 744 acres of land under assessment, of which the rateable value was £888 and the gross rental was £1,019.

The population was given as 148. The majority of the land in Earswick was chiefly the property of William Goldthorpe, Esq., 19, Monkgate, York; William John Rawdon, Esq., Bootham, York; William Hodgson of Haxby; James Mould, Leeds and Mrs Elizabeth Green (farmer) of Earswick house, Earswick.

It is interesting to note that at that time in the village there were 3 market gardeners and a refreshment room, owned by a Mrs Mary Dunn, as well as 9 farms including Field house, Ilford house, Clarks farm, Earswick house and Earswick Grange and Hall farm.

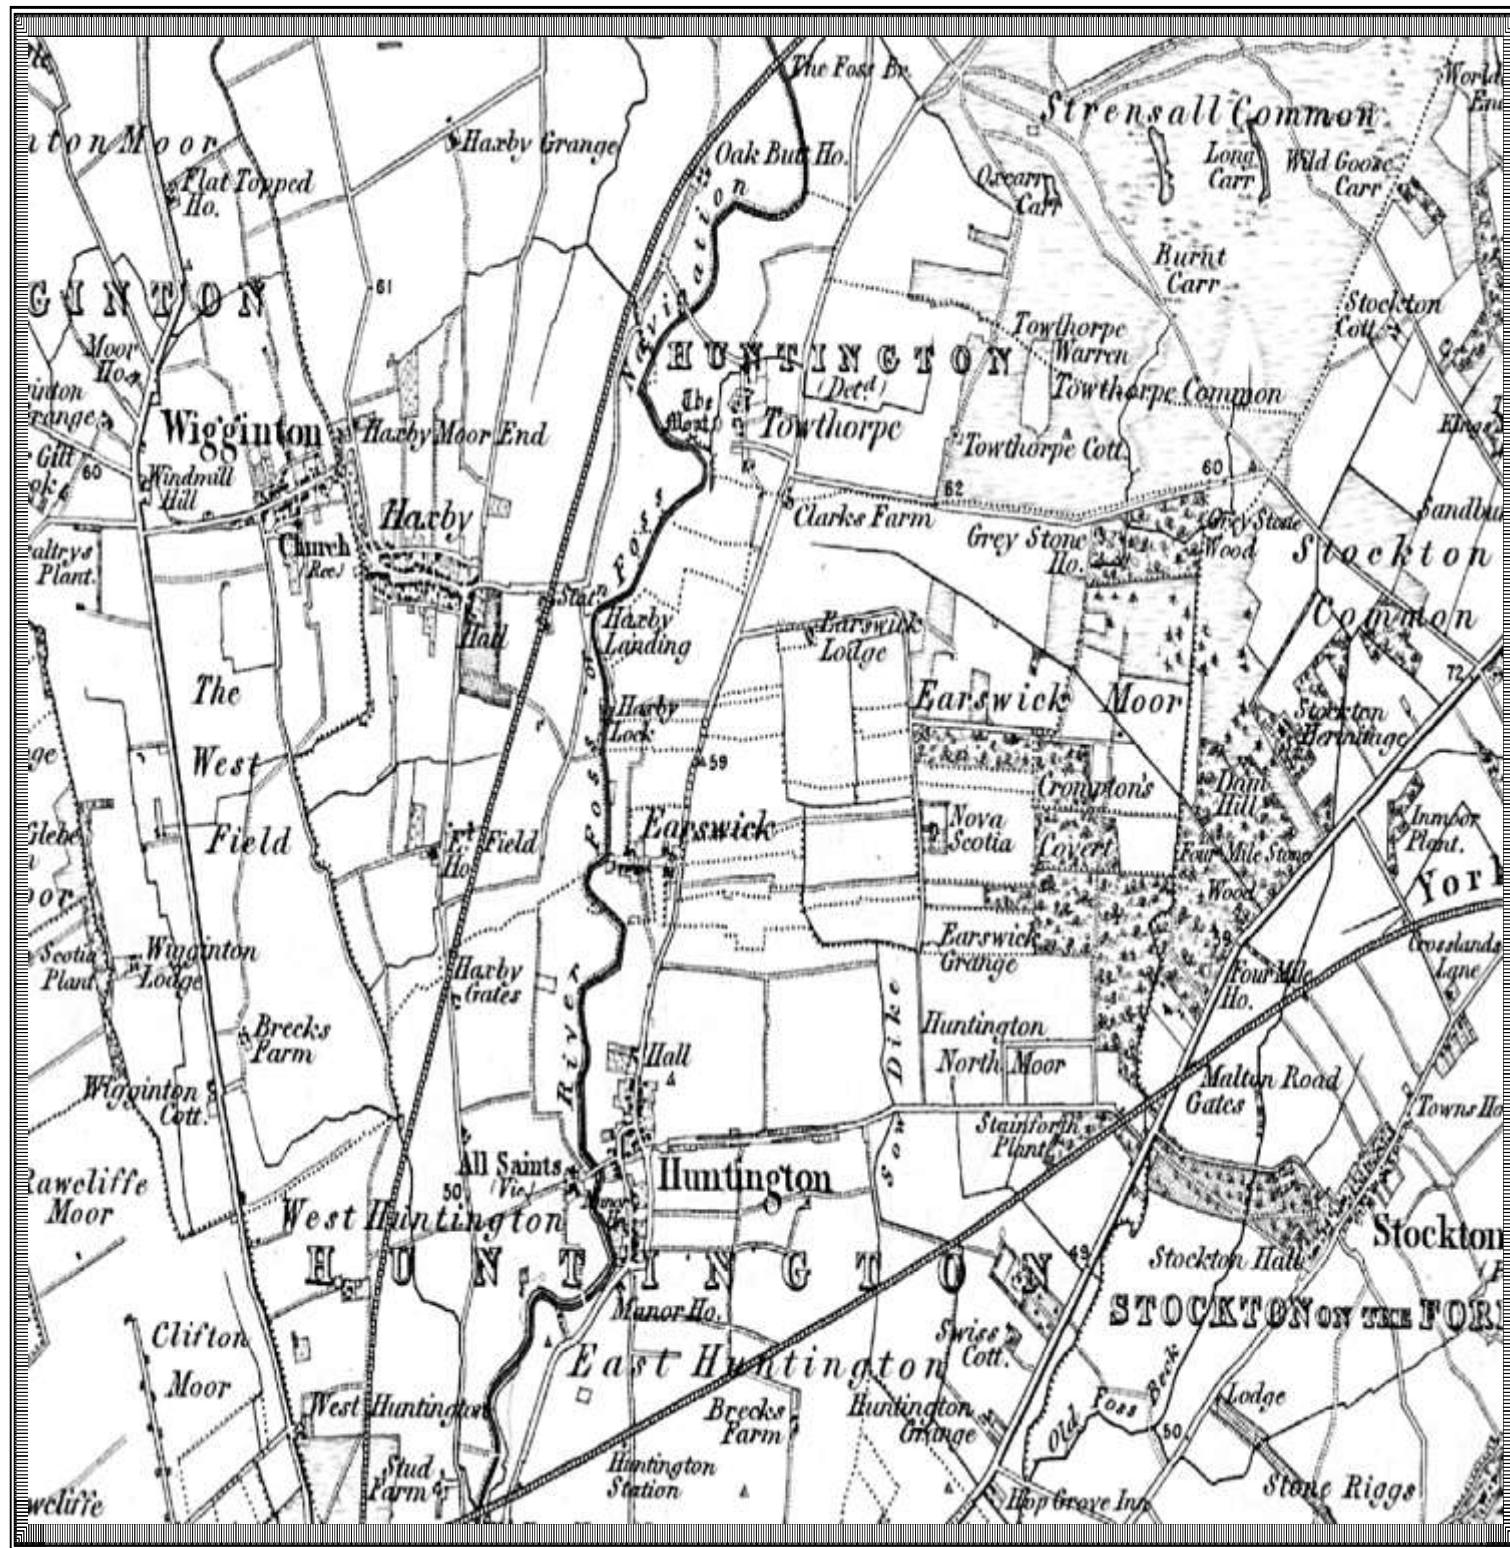

The early and mid 20<sup>th</sup> Century saw Earswick change very little. It remained very much an agricultural village with the population increasing only slightly to around 230. Apart from several farms along the Strensall Road the majority of housing was still located on a ribbon of land off the main York to Strensall Road, leading down to the River Foss, known as The Village.

**In the 1970's the population increased considerably with the building of housing in Shilton Garth Close, Stablers Walk and Rowley Court**

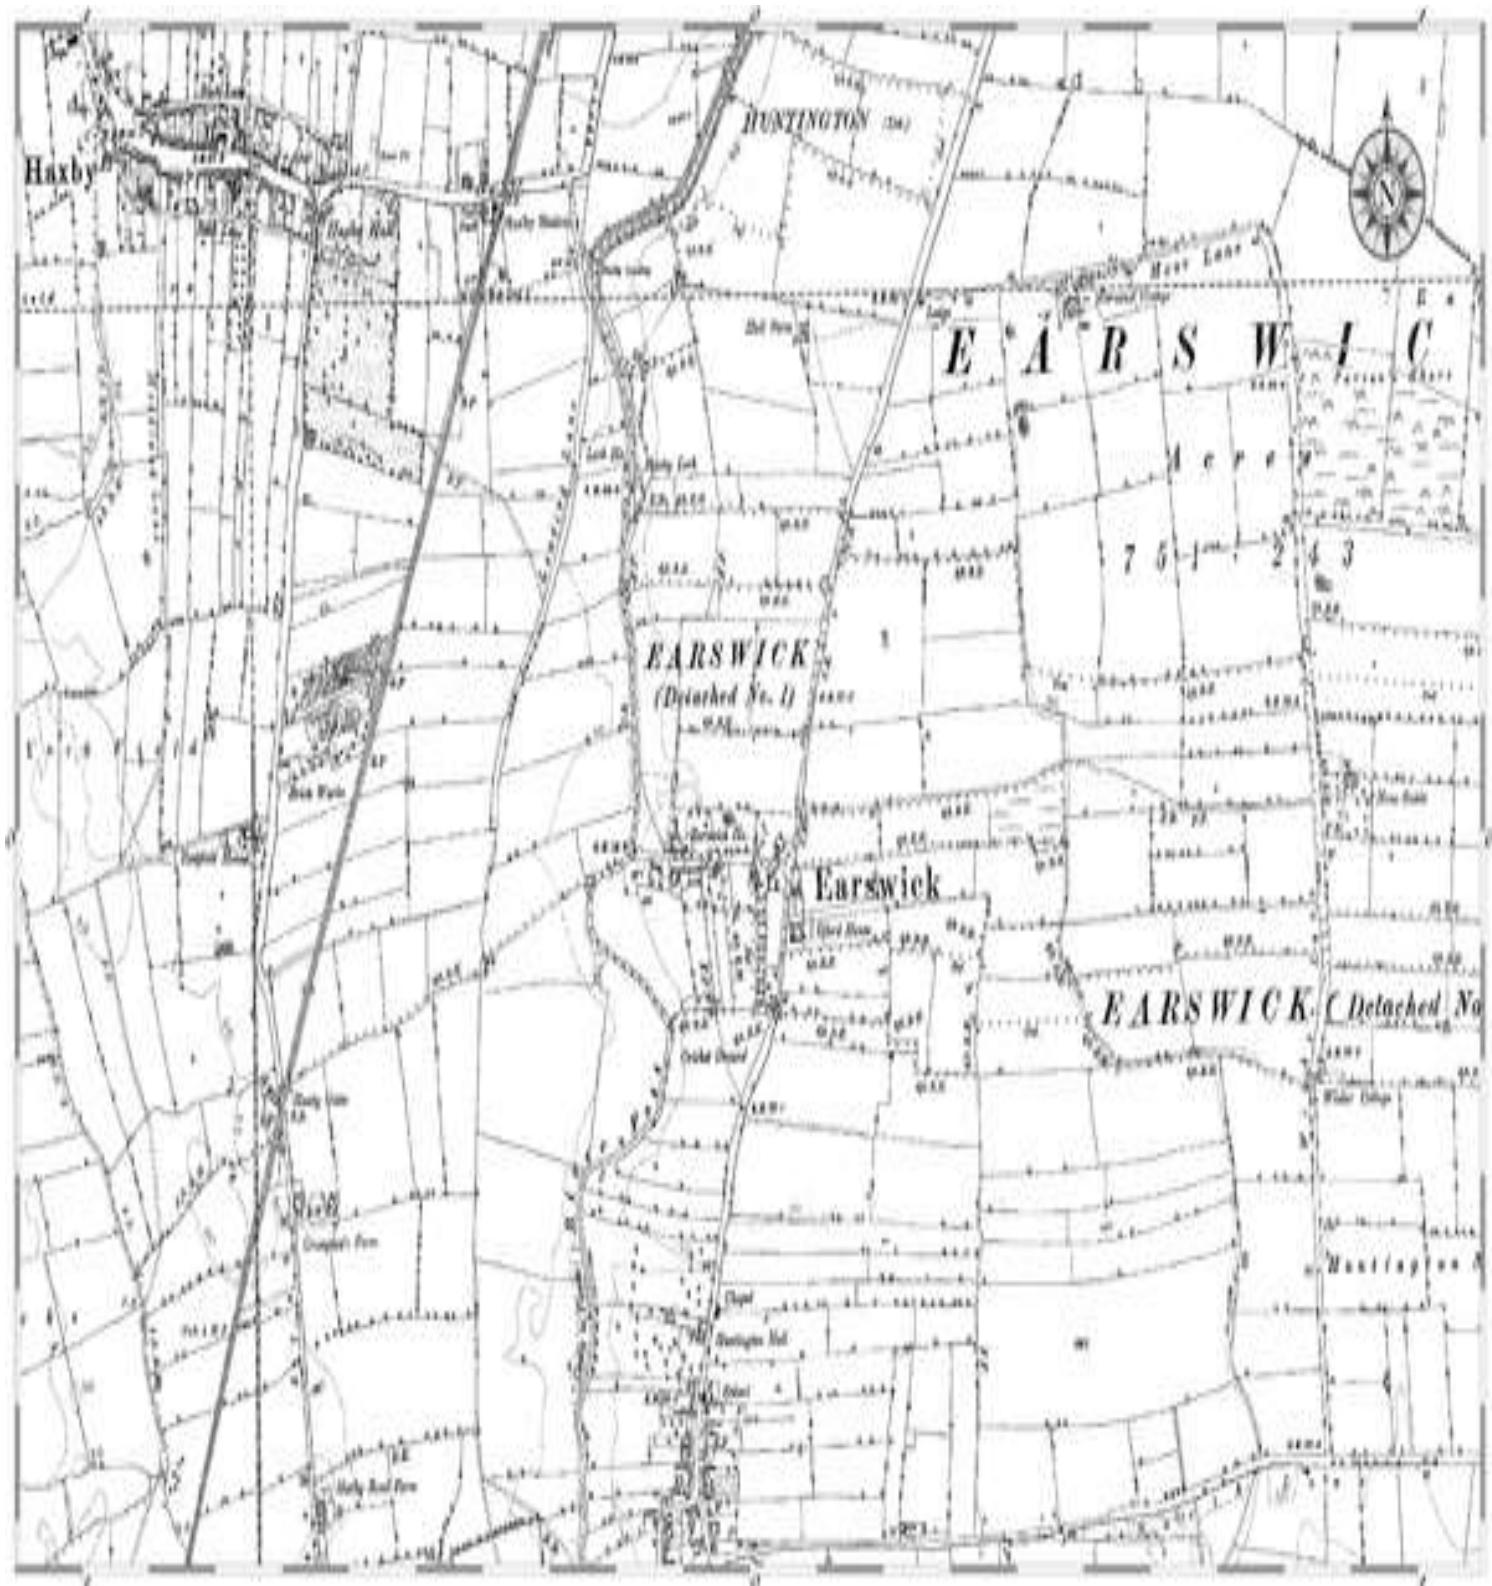

One of the most significant events in the history of the village occurred in the 1990's when the local pig farm obtained planning permission for the construction of 125 homes on what is now the Fosslands estate, almost doubling the size of the village. It did however enable the village to gain a much needed village hall, tennis courts and a bowling green (now the Scented Garden) although it was at this time that it lost its village shop.

## Parish Council

The Parish council is the first tier of governance and is the first point of contact for anyone concerned with a community issue.

In Earswick the council is made up of 5 unpaid, locally elected Parish Councillors, supported by a paid part-time Parish Clerk. (There are also 2 City of York Councillors who represent the Strensall, Earswick and Stockton on Forest Ward).

A Parish Councillor is normally elected for a term of four years. People of any political or religious persuasion are eligible to become a councillor, although their personal views should not extend into their parish council work. Individual councillors work together to serve the community and to help the Council to make decisions on behalf of the local community.

Councillors contribute to the work of the council by suggesting ideas, engaging in constructive debate and by responding to the needs and views of the community. Councillors comment on proposals to ensure the best outcome and vote to enable the council to make decisions. Councillors must accept the decisions of the Council as a whole even if they do not agree with it. In such circumstances a Councillor may ask for a vote against a resolution to be recorded. Councillors are required to behave in an ethical way and to declare an interest when necessary.

The Chairman is elected by the members of the Council at the Annual Council meeting and serves for twelve months. The Chairman's main role is to run council meetings. The Chairman is responsible for ensuring that effective and lawful decisions are taken at meetings of the council and, assisted by the clerk, guides activities by managing the meetings of the council. The Chairman is responsible for involving all councillors in discussion and ensuring that councillors keep to the point. The Chairman summarises the debate and facilitates the making of clear resolutions and is responsible for keeping discussions moving so that the meeting is not too long. The Chairman has a casting vote. His/her first vote is a personal vote as a member of the council. If there is a tied vote, the Chairman can have a second,

casting vote.

The Parish Council meets monthly to discuss council business and to hear from local residents. All Parish Council decisions are taken at Parish Council meetings and there is always the opportunity for any resident to apply to the clerk to speak on any agenda item. The Agenda is displayed on the notice board adjacent to the Village Hall prior to the meeting.

The Parish Council represents and serves the whole community. It is responsible for the services it provides. It establishes policies for action and decides how money will be raised and spent on behalf of the community. It is responsible for spending public money lawfully and achieving the best value for money. Except in certain circumstances council meetings are open to the public.

Each year the council decides the annual precept. This is the sum of money raised from parishioners to enable the Parish Council to fulfill its obligations to the community. Most of the precept is spent on maintaining the fabric of the village. This includes grass cutting, maintenance of the play area and 30 acres of public open space as well as the general upkeep and repair of council property such as bus shelters, litter and grit bins and the various benches located around the village. The Parish Council also gives financial support to local organisations such as the Scented Garden Committee and the Environment Group.

## Parish Councillors

Cllr Derek Jones – Chairman, 41 Earswick Chase – Tel: 01904 767767

Cllr Sian Wiseman – Vice Chairman, 10 Shilton Garth Close – Tel: 01904 761010

Cllr Pat Leveson – 9 Shilton Garth Close – Tel: 01904 764344

Cllr Kate Pace – 80 Earswick Chase – Tel: 01904 750719

Cllr Phil Sapsford – 7 Lock House Lane – Tel: 01904 767887

Mrs Sarah Millson – Clerk, 6 St Aubyns Place – Tel: 1904 638766

## What is a Parish Plan?

The Government has stated that it wishes to give small rural communities such as Earswick more of an opportunity to run their own affairs.

The proposed Localism Act encourages communities like ours to develop a Parish Plan to:

- Show how we would like our village to develop
- Identify key facilities and services
- Set out problems to be tackled
- Demonstrate how to preserve the **village's distinctive character and features**

In broad terms a Parish Plan should:

- Cover all issues of concern to the community – social, economic and environmental
- Be community driven
- Use information from surveys, research and consultation
- Be action focused

So a Parish Plan initiative is a mechanism whereby a Parish Council can involve the whole community in setting out its aspirations for the future. The Parish Council can then proceed in the sure knowledge that it has the mandate of local residents in convincing other organisations such as City of York Council and North Yorkshire Police that it has the full support of local public opinion.

## Process used in developing the Plan

From the outset the Parish Council were keen that in developing any plan, the focus must be on consultation with all residents of the village.

It was agreed that the best way to do this was by carrying out a detailed Village Survey, in the form of a Questionnaire, which was then distributed, in the summer of 2011, to all households listed in the Register of Electors.

The Questionnaire enabled villagers to comment on a wide range of issues relating to the village such as:

- Sport and Leisure
- Communication
- Travel
- Traffic
- Development
- Environment
- Crime

A total of 201 questionnaires were returned, a response rate of around 60%.

Analysis of all the responses was carried out in the autumn of 2011 and from these results an Action Plan was developed for each of the categories.

In the preparation of the action plan **every** subject raised by residents was examined. However some matters raised by only a few people will not be addressed in the short term and similarly other matters where there is an imbalance of costs and benefits will not be taken up in the near future.

A copy of the Village Survey results and the Action Plan were posted on the Parish Council website in late 2011 prior to the finalization of the Parish Plan.

## The future management of the Plan

The Parish Plan was formally adopted by the Parish Council at its March 2012 meeting. This gives it an official status and forms a linkage for the Parish Council to provide financial support from the precept.

Implementation of the Parish Plan will fall primarily to the Parish Council and any sub-committees that it chooses to form to tackle specific issues.

It is anticipated that the Plan will be revised from time to time and new versions issued – this will be an ongoing process.

Village hall

Children's play area

## Community Activities – Sports and Leisure

The majority of sports and leisure opportunities in the village are centred around the Fosslands estate of Earswick. The Village Hall, Scented Garden, Tennis Courts, Children's playground, Bmx track and Sports field are all located here.

Present activities in the Village Hall which is situated in a picturesque spot overlooking the River Foss, include Puppy Dog training, Keep Fit classes, Hip Hop for children and adults, Circuit training and a Drama class for children.

The Hall is well maintained and has full disabled facilities, including a recently installed Induction Loop system for the hard of hearing. Alcohol may be consumed on the premises but must not be sold unless a licence has been applied for.

Whilst its central location makes walking to it comparatively easy from most areas of the village there is also ample free car parking.

The building is owned by the Parish Council who lease it to a separate village hall committee. This body is a registered charity who administer the village hall for "the use of the inhabitants of the village of Earswick.... with the object of improving the conditions of life for the said inhabitants". The village hall also hosts the ever-popular annual Quiz and has recently been the focal point for the Royal Wedding and Queen's Diamond Jubilee celebrations.

At the rear of the village hall is a children's play area with swings, climbing frame and slide.

The Scented Garden, located close to the village hall, is a recent addition to the village's amenities having been constructed out of the former bowling green. It provides a quiet haven for those seeking peace and solitude. The garden is administered by a committee who are always on the look out for new members or anyone who is able to spend some time helping out in the garden.

The village has good sports facilities for its size. We have a playing field located at the end of Lockhouse Lane which includes a 5 a side sized football field complete with goalposts and nets, exercise equipment and a BMX track.

Two tennis courts, located between the village hall and the river, are also available to the residents of Earswick for a small annual fee per household.

Tennis courts

In addition the village also has over 30 acres of public open space with designated footpaths and riverside walks.

The Questionnaire responses showed little enthusiasm for more recreational facilities being provided in the village. However where these could be provided at minimal cost or through the provision of grants then the Parish Council will look closely at the top five suggestions identified by residents.

These are:

- Marking out of a Fitness/Jogging trail
- **More smaller children's play equipment**
- Provision of older **children's play equipment** on the Sports field
- Provision of Inducted Loop Hearing System in the village hall
- More benches on the Public Open space

There was a greater desire for more community-based events such as those listed below:

- Annual village fete/Summer Fair
- Treasure Hunt
- More quizzes
- Gardening club
- Book club
- Bridge club
- Chess club
- Pensioners Group
- Parent and toddler group
- Tennis club/Tennis tournament
- Christmas tree
- Information booklet for newcomers to the village

The majority of requests identified above can simply be organised by a group of interested residents themselves and do not necessarily require input from the Parish Council. If you would like to start up one of these groups or clubs then why

not put an article in the Parish Newsletter, on the website or place a poster on the Noticeboards asking for like-minded people to join you. Funding for such activities or for groups may be available from the Parish Council. Contact the Parish Clerk for details or more advice.

With regard to the Scented Garden some 54% of respondents indicated that they used the garden on a regular or occasional basis. Suggestions for improving the garden included:

- Longer opening hours, particularly in the summer months
- Provision of a shelter or shaded area to sit in
- More scented plants
- Labelling of plants
- Planting of trees or bulbs in the grassed areas

It needs to be emphasised that because something has been requested by a number of residents it does not automatically ensure that it will be possible to secure the necessary funds to provide the improvement, no matter how desirable it may be. Inclusion in the Action Plan does not necessarily mean automatic adoption.

*Scented Garden*

## Communications

Parish Council meetings are held once a month in the Village Hall and are advertised on the noticeboards situated throughout the village. Members of the public are welcome to attend and have 15 minutes in total at the beginning of the meeting to comment on any item on the Agenda or on any topic of their choosing so long as it relates specifically to the village. Residents can also elect to speak on a specific item on the agenda during the meeting by prior arrangement with the Clerk.

The Parish Council also has its own website, [www.Earswick.org.uk](http://www.Earswick.org.uk) which contains details on a wide variety of subjects which are of relevance to residents and visitors to the village.

The Parish Council also publishes a quarterly newsletter that contains current information regarding news and events.

From time to time various organisations in the village use letterdrops to individual households to promote and inform residents of specific events happening in the village.

The Village Hall committee hold meetings about 4 times a year, these are also advertised on the noticeboards and the public are welcome to attend.

The response from the Questionnaire indicated that on the whole residents were satisfied with the various ways in which the Parish Council communicated with parishioners.

There is a good take up of internet access in the village and it is likely that the use of the internet for local communications and information distribution will increase in future years with more and more households looking to receive communications from the Parish Council via email. This is an area we are currently exploring.

Around half of the households who responded indicated that they were aware of the Parish Council website with about 20% of the village accessing it on a regular basis.

Suggestions for improving communications centred mostly on improving the website:

- More frequent updating of website
- More news on current events
- Improved links to City of York Council services sites
- Open forum page for residents

## Development

At the present time the area around Earswick is mainly Green Belt. The village is bounded to the south by the City of York Northern Ring Road and Huntington Village, to the west by the River Foss and to the North by Strensall Army Barracks and Towthorpe/Strensall Village. Farmland lies to the east of the village. Most recent developments have been to provide executive style housing on the Fosslands and Garden Village estates.

The Questionnaire results show that most residents had firm views on the subject of possible further development with almost two thirds of respondents being against any further housing development. The main reasons being:

- Village already overpopulated
- Reduction in green spaces
- Increase in traffic pollution
- Infrastructure already at capacity

Residents did however indicate that some localised development might be acceptable on the land next to Willow Grove. To include:

- Village Store
- Church
- Public House/Restaurant
- Community Centre

The Parish Council will take into account these views when considering future planning applications and will ensure that all possible influence is exerted to discourage any inappropriate development.

## Traffic and Travel

The Questionnaire posed ten questions in respect of Travel and Traffic.

Over 90% of replies indicated that they travelled to work or school by car. Whilst it could have been anticipated that the private car would be the most common mode of transport the degree of use is quite surprising. It is regrettable that more residents do not choose to cycle to work or school given the health and financial benefits that can accrue from this activity. The main reason given for this is the difficulty of having to cross the A1237 Ring Road. It is likely that more people would cycle if an underpass were provided across this major junction.

A lesser-cost alternative to constructing an underpass across the A1237 would be to construct a cycle path along the route of the River Foss from the bottom of The Village to the bridge near All Saints Church in Huntington. Whilst this path is known to be prone to flooding in the winter months over 50% of residents did indicate that the provision of such a route would encourage them to cycle more.

Such a path would also have the added benefit of opening up the access to the Flower Meadow.

This proposal is fully supported by the Parish Council and we will make our residents backing for this known to City of York Council who would have to provide the necessary funding.

With regard to Public Transport while only a few respondents confirmed that they regularly used the bus to travel to work/school it would appear that the majority of residents do however use the bus service on occasions to travel to and from the village.

Earswick enjoys a regular bus service to and from York. Some 81% of respondents were satisfied with the bus timetable but nearly everyone agreed that the reliability of the service could be improved. Suggestions for improving the service included:

- Better evening service
- Later last bus at weekends
- Bus link to Monks Cross and Clifton Moor

As far as Traffic was concerned there was almost a fifty-fifty split in respondents who didn't want to change the speed limit along Strensall Road,, from the Towthorpe junction compared to those who did. However there was a clear majority of 3 to 1 in favour of introducing a 20mph speed limit on local roads within the village. Over 75% of residents also voted in favour of installing a speed control sign on the approach to Garden Village from Strensall.

Suggestions for improving traffic management through the village included:

- Cyclists to use the footpaths
- Speed humps to be installed at both approaches into the village
- Improved STOP sign near roundabout from Strensall
- Re-position the bus stop opposite the entrance to The Village

Other traffic concerns included:

- Speeding traffic and noise on Strensall Road
- Speed of visitors going along Earswick Chase to the village hall
- Cars parking too near junctions, particularly at the end of The Village

The majority of residents also believed that the road surfaces and footpaths in the village were of a reasonable or good standard. The only road where residents raised concern was in The Village where a number of patchwork repairs have been carried out over the years.

*The Village*

## Environment

There was an enthusiastic response to the Questionnaire with regard to environmental issues. All respondents felt that the general appearance of the village was very reasonable however most agreed that dog mess on our pavements or on the public open spaces was becoming a problem even though there are plenty of dog bins. It is essential that all dog owners clear up after their dogs and discourage fouling on pavements and on the play areas and open spaces where human infection becomes a real risk. The Parish Council has asked the Dog Warden to step up patrols around the village.

With regard to the fortnightly refuse collections over 85% of replies were satisfied with the service but nearly 80% of households still had to make a trip to the local tip, mostly on a monthly basis. Bulky items, which could not be fitted into the normal waste bins and garden refuse, were the cause of most trips. City of York Council do offer a Household Waste Special Collection Service for collecting bulky household items although a charge does apply. Interestingly only one respondent advocated a return to weekly grey bin collections.

Encouragingly 54% of people who replied to the Questionnaire were prepared to take part in a clean up day of the village and it is intended that these will take place three times a year in February, June and October. Precise dates will be advertised in the Parish Council Newsletter.

*River Access Land*

In November 2011 residents and Parish Councillors planted 700 trees and 500 daffodil bulbs on the River Access Land between the rear of Shilton Garth Close and the Ring Road. The trees consist of a

mixture of silver birch, field maple, alder, cherry, rowan and thorns.

As a result of the Questionnaire a group of volunteers have formed the Earswick Environment Group **to** act as an advisory body to the Parish Council on all aspects of environmental issues, including Ecology, Energy, Transport, Education, Horticulture and Community.

One of the environments group's recommendations is to develop the piece of land between the rear of Earswick Chase and the rear of The Village into a "Wildlife Zone". The area will be tidied up and future initiatives could involve putting up bird boxes, insect homes for beetles and bumblebees and hibernation sites for hedgehogs.

*Enclosed Open Space*

Other actions being considered by the environment group include:

- Planting wildflower seeds in the Wood and Flower Meadow.
- Erecting noticeboards identifying Flower, Fauna, Wildlife etc
- Establishing nature trails linking the Wood, Flower Meadow, Pond and Scented Garden

*Flower Meadow*

All of the above environmental activity requires a great deal of volunteer support. If we want to improve and maintain the Earswick environment we need **your** help and support to make a difference.

## Crime

Earswick is a very safe place to live in. It has a relatively low level of crime rate with only 15% of households having been victims of crime in the last two years, mostly from burglary. Despite this the vast majority of respondents to the Questionnaire felt that the village is not well policed. Residents expressed a range of demands for a better service from the Police with most people wanting to know how to contact the local area PCSO and have more visible patrols of the village, especially at night. The Parish Council have held meetings with North Yorkshire Police to address these issues and as a result patrols of the village have been increased at night. To contact your local PCSO or to report non-emergency crimes simply ring **101**.

Crime related issues that concerned residents most were:

- Unsolicited salesmen
- Theft
- Vandalism
- Anti-social behaviour

The village operates a very good Neighbourhood Watch Scheme that covers all areas of the village, with over 30 co-ordinators each responsible for around 10 houses. If you are not sure who your Neighbourhood Watch co-ordinator is or if you wish to volunteer to help, contact the Parish Clerk.

## Quick Wins

The main thrust of the Parish Plan is about gathering the views of the community and developing long-term action plans to enable the ideas to be implemented. The responses received from the questionnaire were very thoughtful and gave all of us much to consider. However during the analysis it became clear that there were some points being raised that did not require the full and involved process of the Parish Plan and action could be taken to enable some visible results from the consultation process to be achieved quickly. From the responses to the Questionnaire it became clear that there were a number of people who were not aware of the facilities that already existed in the village. For example some residents raised the need for a collection service for larger/bulky items of waste without realising that such a facility already exists through the City of York Council. Others raised the possibility of having keep-fit/exercise classes in the village hall. Again these are already available.

Answers to address both of these points were included in the October 2011 Newsletter. We are also talking to the Village Hall committee about providing a regular updated list of classes/events taking place at the village hall that can be included on the Parish Council website, in the Newsletter and placed on Noticeboards.

The Parish Council were also asked to look into the possibility of providing an Inducted Loop Hearing system in the Village Hall and to provide more benches on the Public Open Spaces. A successful bid was made for Ward Funding for both these items. The loop system has now been installed in the Village Hall and two new benches have been located around the pond.

Over 80% of people who replied to the survey indicated that they supported the formation of an Environment group within the village. This has now happened and details of their initial proposals are included in the Parish Plan.

## QUICK WINS ACTION PLAN

<b>Ref</b>	<b>Action</b>	<b>How it will be tackled</b>	<b>Priority</b>	<b>Partners</b>	<b>Timescale</b>	<b>Lead Responsibility</b>	<b>Resource implications</b>
QW1	Disposal of bulky refuse items	CYC offer Household waste special collection service. Publicise in Newsletter	High	City of York Council (CYC)	Done	Councillor Derek Jones	None
QW2	Communicate village hall events	Comprehensive listing for the month ahead to be included on website and noticeboards	High	Village Hall Committee	Done	Councillor Kate Pace	None
QW3	Installation of Inducted loop hearing System in the village Hall	Application made for ward funding and granted	High	Ward Councillors Village Hall Committee	Done	Councillor Sian Wiseman	Ward funding
QW4	More benches on the public Open spaces	Application made for ward funding and granted	High	Ward Councillors	Done	Councillor Sian Wiseman	Ward funding
QW5	Formation of Earswick Environment group	Contact to be made with volunteers identified in the Village Survey	High	Residents	Done	Councillor Kate Pace	Initial funding already sourced
